In 2013, the Foundation helped **372** men and **487** women with their fertility related concerns.

MARITAL STATUS

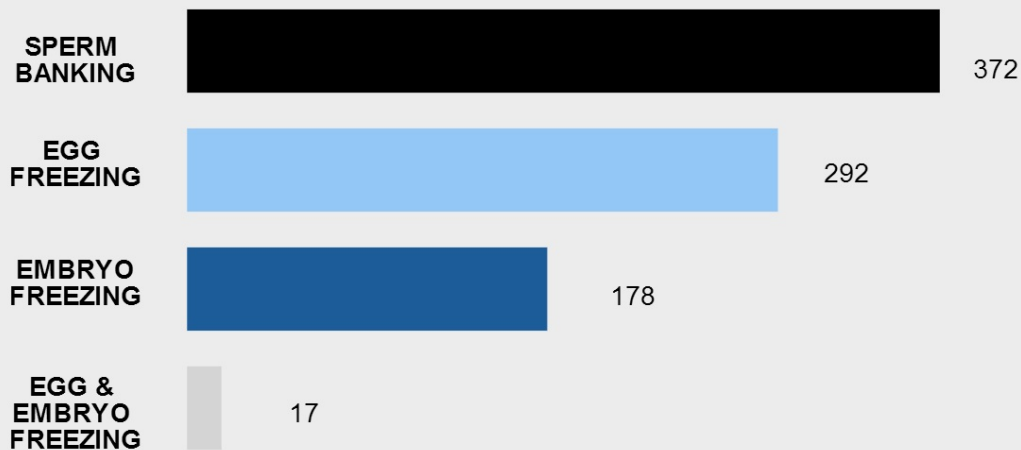

In 2013, the Foundation's Fertility program helped more than **600** unmarried individuals access fertility preservation services, allowing them to make future family planning decisions on their own terms.

GEOGRAPHIC AREA

FERTILITY PRESERVATION OPTIONS

LIVESTRONG helps to ease the financial burden of common fertility preservation procedures for people affected by cancer. Procedures such as sperm banking and egg and embryo freezing allow clients the opportunity to become parents after cancer.

In 2013, the LIVESTRONG Fertility Discount Program helped facilitate 372 rounds of sperm banking, 292 rounds of egg freezing, 178 rounds of embryo freezing, and 17 rounds of combined egg and embryo freezing.
